RE: Standard Scrap Metal/Chicago International Exporting
Site, Chicago, Illinois

Dear Ms. Tape:

This letter responds to your letter dated April 20, 1995 to Steve Faryan. As I indicated to Joseph Nassif of your office on April 18, 1995, and as provided in Unilateral Administrative Order No. V-W-95-C-283 ("Order"), Respondents' work plan under the Order is due on Monday, April 24, 1995. Failure to submit the required work plan on that date shall be a violation of the Order.

Regardless of when sampling begins at the site under the Order, a work plan must be developed as set forth in the Order. Also, as a reminder, the work plan must address all actions necessary for compliance with the Order, including steps Respondents intend to take to ensure that no release of hazardous substances occurs from or at the Site. The work plan should also include a sampling plan identifying sampling frequency, location, and procedures (See paragraph 3.1 of the Order).

If you have any questions regarding this matter, please do not hesitate to call me at (312) 886-6831.

Sincerely,

Kurt N. Lindland
Assistant Regional Counsel
